

STATEMENT OF REASONS

City of Newcastle upon Tyne (Argyle Street Area) Experimental Traffic Regulation Order 2020

The Council's reasons for making the above Order and for proceeding by way of Experimental TRO are as follows:-

To avoid danger to persons or other traffic using the road and for preventing the likelihood of any such danger arising. To facilitate the passage of any class of traffic (including pedestrians), and for preserving or improving the amenities of the area

These changes will be implemented using an Experimental Traffic Regulation Order to enable the Council to monitor the impact of the proposals.

During the experimental period consideration will be given to making a permanent Order in like terms.
